Power Pack Display Assembly Instructions

Included: 2 base pieces
2 rack pieces
2 lg. screws
2 sm. screws (attached to base pieces)
48 product hangers
1 header card

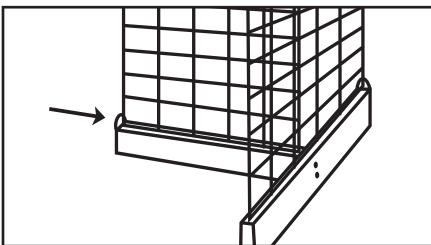

You'll Need: 1 philips head screwdriver

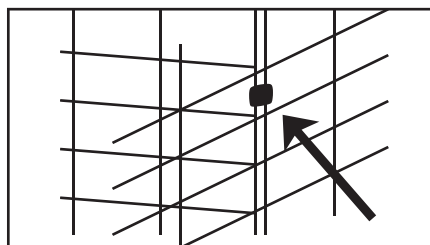

1. Attach 2 base pieces together as shown with the large screws.

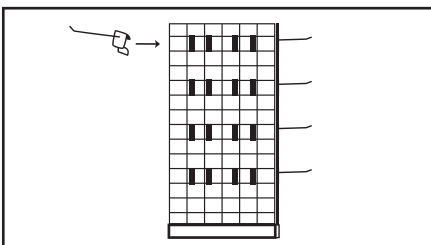

2. Attach one of the rack pieces to the assembled base using one of the smaller screws. You may have to lean the rack against something to keep it upright.

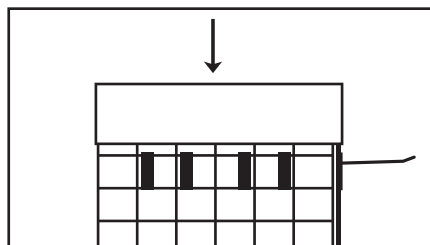

3. Attach the second rack piece to the base with the second small screw attached to base.

4. Attach the clamps to the rack pieces with a philips screwdriver.

5. Attach product hangers to display as shown.

6. Slide corners of header card around corners of display as shown.
